The road leading to the Centre is tarred except for the last 2.5 km. The camp lies on the bank of the Kogelberg Dam, surrounded by mountains and beautiful indigenous "Fynbos" vegetation. The nearby Palmiet Hydro-electric Power Station is a popular visiting point for groups visiting MIZPAH.

Every bedroom has two double deck bunks and two single beds with mattresses; shelves for clothes and a wash basin, on the veranda there is one double deck bunk or two single beds (Total Beds = 149). 3 ENVIRONMENTAL EDUCATION / OUTDOOR EDUCATION

The dam and the nearby Berg River offer not only a beautiful view but is also ideal for the studying of water ecology, geographical phenomena and man's dependence on nature. Opportunities to get to know the fauna and flora of the reserve are abundant. The variety of "Fynbos" around the camp makes it easy to get an idea of the vast diversity of plants in the reserve. The hiking trails and various footpaths offer even more to enjoy for the more energetic persons

4 FACILITATOR

The services of trained facilitators and educationists, can be organized for visiting groups. Please contact the camp manager for information. External facilitators set their own fees and you pay them directly.

5 ADVANTAGES OF A VISIT TO MIZPAH

- The centre is not a holiday resort where the public have unrestricted access to the terrain; an island situation can be created.
- One of the most important advantages is the fact that MIZPAH is centrally situated (Cape Town is only 70 km. from the centre, Stellenbosch 50 km., Worcester 100 km., Swellendam 140 km.), but remote enough to have quietness and peace.
- Good, clean facilities and services are available at affordable tariffs.
- The environment is peaceful and the fauna and flora is unique.

We have the facilities, the equipment and the knowledge to assist you. To get more information, to organise an appointment or to visit us is as easy as to phone us. We would like to make your task easier
